BCH BLAZE 2026 · MAINNET + MEDIA TRACK

StreamVault.cash

Non-custodial PUSD streaming payroll & subscription vault on Bitcoin Cash

VAULT

$1,000.00

PUSD locked in covenant

$25.00 / period · cancellable

Team Autonomous Cash · streamvault.cash · @StreamVaultCash

ONE-LINER

Programmable BCH money streams that pay themselves - capped on-chain, cancellable by the payer, settled in a stablecoin.

Non-custodial

Payer keeps the claw-back

PUSD settlement

USD-pegged CashToken

Hard covenants

Recursive change, VM-enforced

github.com/juangh123/streamvault.cash

THE STORY

Contractors, creators and vendors are paid in lumps - late, custodial, or both.

Cards & mandates	Custodial, reversible, geo-fenced.
Lump-sum crypto	No schedule; all-or-nothing.
Streaming on EVM	Gas exceeds the tranche.

BCH: near-zero fees + introspection covenants = the natural rail for programmable streams.

BENEFITS

One covenant, four wins.

Payees

Withdraw on schedule - no invoice, no custodian.

Payers

Per-period ceiling; cancel and reclaim anytime.

Stable value

Denominated in PUSD, not a volatile token.

Any wallet

Sign with Selene, Paytaca or Cashonize.

BCH USAGE - CORE SCORING

Every rule is enforced by consensus, not by a server.

PUSD token

CashTokens category

Covenant

amountPerPeriod + periodBlocks

this.age

OP_CSV gates each tranche

Recursive change

output[1] == input[0] bytecode

WizardConnect

signed + broadcast

PUSD is a CashToken, so the VM proves token conservation. Change is forced back into the identical covenant bytecode. A claim can never drain the vault - only the payer can cancel.

VISION & ROADMAP

From hackathon MVP to an agent money-stream protocol.

Phase 1 - Hackathon	Covenant, cockpit, Chipnet + Mainnet settlement.
Phase 2 - SDK + MCP	Agents stream a per-call PUSD budget.
Phase 3 - Marketplace	Directory of PUSD-denominated recurring services.

THANK YOU

Try the live demo

streamvault.cash

Judge walkthrough - one click, no wallet

Launch the demo stream → fast-forward one period → claim a tranche → cancel and reclaim 100%.

Bitcoin Cash is peer-to-peer cash for people - and now, for their money streams.
